

Julie Rocks Game

Submitted by Laurie for www.ExecutiveHomemaker.com

To make this game board, I got an old "Sorry" game and covered it with scrapbook paper. I used a "Rocking" theme. For the embellishments I used the Rock King Chip Board embellishments.

This game board folded in the middle, so I used the adhesive ribbon down the middle to cover the fold. I made sure that the adhesive only stuck to one side so it would still fold and fit into the box.

To make the game pieces, I painted the sorry pieces black and then sprayed them with polyurethane. I then found these buttons and hot glued them on.
